Directors' Report

The Directors of GenusPlus Group Ltd present their report together with the financial statements of the Consolidated Entity, being GenusPlus Group Ltd and its controlled entities (the Group) for the half-year ended 31 December 2024. In order to comply with the provisions of the *Corporations Act 2001*, the directors report as follows:

Directors' details

The names and details of the Company's directors in office during the financial half-year and until the date of this report are set out below. Directors of GenusPlus Group Ltd were in office for the entire period unless otherwise stated.

Non-executive Directors

Mr Simon High
Mr Paul Gavazzi
Mr José Martins
Executive Directors
Mr David Riches

Principal activities

The principal activities of the Group during the financial half-year were the installation, construction and maintenance of power and communication systems.

There have been no significant changes in the nature of these activities during the half-year.

Review of operations and financial results

Operating results for the period

A review of the operations of the Group during the financial half-year and the results of those operations saw a 33% increase in revenue to \$332,874,405 (HY24: \$249,956,459). The profit of the Group for the financial half-year after providing for income tax increased by 51% to \$13,701,137 (HY24: \$9,049,466).

The Group reported a 25.1% increase in normalised EBITDA (earnings before interest, tax, depreciation and amortisation) to \$27,364,918 (HY24: \$21,867,207). Normalisations for HY25 are Acquisition costs and of \$863,058 (after tax \$604,141) and loss from ECM claims of \$354,019 (after tax (\$247,813)).

The results reflect an improved performance of all business segments on higher revenues and improved earnings. After a period of sustained growth, the tailwinds for the Infrastructure segment are significant as Australia transitions to new clean energy generation, which requires significant investment in the transmission network across the country.

The Group's net assets increased by 13.2% compared to the previous year ended 30 June 2024, which is due to the the issue of shares for part of the acquisition consideration of Partum, and an increase in retained earnings after allowing for the dividend declared and paid during the half.

Infrastructure

The Group is positioned to benefit from Australia's energy transformation. The demand generated by the Rewiring the Nation Program, along with our successful track record in delivering renewable energy projects, places us in a favorable position for the foreseeable future. We are confident that our current standing will open up abundant opportunities for us in the years to come. Coupled with the required growth in new energy coming from intermittent generation sources, the Group is leveraging demonstrated experience in targeting Grid-Scale and Battery Energy Storage projects that are required to support the grid.

Industrial Services

The Industrial Services segment has grown revenue on projects on the east coast of Australia. It continues to gain traction in the new energy industry with a focus on the BESS market. The Melbourne Renewable Energy Hub in Victoria (in joint venture with Samsung C&T) is progressing well. Industrial Services is expanding on the current market offering of BESS to include Wind and Solar EPC Projects.

Communications

After a period of restructure, the Communications segment which has provided a strong contribution to the group. The addition of CommTel Network Solutions Pty Ltd (CommTel), acquired in October 2024, with revenue of approximately \$60 million per annum will provide a more diversified customer base and communications offering to the market.

Orderbook & Pipeline

The Group continues to achieve significant growth in its business underpinned by existing contracted work, recurring revenue from regular clients, and anticipated revenue from its existing tender pipeline of works.

Revenue from recurring works including long term customer/panel revenue and revenue from long term supply & maintenance contracts, and the current outstanding orderbook for FY2025 has grown and the platform is there for the Group to sustain continued growth.

In addition to the tendered pipeline there are further significant budgets and opportunities in progress. Work on initial budgets for clients, which are not yet at formal tender stage, is common in our industry and helps provide Genus with insights into the long term requirements for its services.

Genus is seeing the pipeline for the transition of the Australian transmission network grow substantially. In addition to the major investment in the transmission network and battery storage around Australia, Genus is well positioned to construct connections to the new transmission network from new energy power sources and renewable energy zones.

Business combinations

During the period the Group completed acquisitions in relation to CommTel, acquired in October 2024 and Partum Engineering Pty Ltd (Partum) in December 2024.

CommTel specialises in providing mission and business critical network solutions to the mining, oil and gas, transport, power utilities, carriers, and public safety sector, providing reliable low latency communication systems that manage and monitor critical services such as electricity grids, train and rail transport, air traffic control, telecommunication services, mining automation, and emergency services. The acquisition of 100% of CommTel (together with associated intellectual property) was for a total net consideration of approximately \$6 million. Net consideration comprises a combination of \$10.1m contribution to the DOCA fund, refinance of senior secured obligations and estimated value of assumed liabilities, less the value of working capital assumed upon completion. The acquisition has been completed on a provisional basis, with a final assessment of the fair value of net assets acquired to be completed within 12 months.

The acquisition of Partum continues Genus' strategy to expand services throughout Australia by providing in-house specialised design of distribution and transmission powerlines, electrical distribution systems and substations. The acquisition of Partum was completed with initial consideration of \$12 million, with \$5.7 million paid in cash and \$6.3 million in Genus ordinary shares. The acquisition has been completed on a provisional basis, with a final assessment of the fair value of net assets acquired to be completed within 12 months.

Shareholder returns

The Group paid a final dividend in relation to the year ended 30 June 2024 of 2.5c per share in October 2024.

No dividend has been declared for the half year period to 31 December 2024.

Investments for future performance

The Group invested \$17.2 million in capital expenditure during the half-year, compared to \$8.4 million for the previous comparable period. Of the capital expenditure \$9.1 million (HY24: \$4.4 million) was acquired under finance contract agreements and is considered Right-of-Use assets.

Genus Plus continues to invest in the renewal of its equipment to meet the ongoing needs of our customers. Growth capital expenditure has increased mainly attributable to increases in recurring works for PFA; and the in preparation for significant projects awarded to Genus being Transgrid's HumeLink, TasNetworks NWTD and Western Power's CELN projects.

The Group is focused on replicating its Western Australian business model into the larger east coast market which is dependent on the Group's ability to continue to grow the new operations and execute its growth strategy.

Significant changes in the state of affairs

There were no significant changes to the state of affairs during the half-year.

Dividends

On 1 November 2024, the dividend in respect of the year ended 30 June 2024 of 2.5 cents per share fully franked for a total of \$4,443,121 was paid to all shareholders at the record date of 2 October 2024.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7 and forms part of this Directors' Report.

Notes to the Condensed Consolidated Financial Statements

1 Nature of operations

GenusPlus Group Ltd and its subsidiaries' (the Group) principal activities include the construction and maintenance of transmission and distribution power lines and substations servicing the Western Australian, Queensland, New South Wales, Tasmanian and Victorian power networks as well as providing specialist Engineering, testing and commissioning services to the electrical and communications industries across Australia.

2 General information and statement of compliance

These condensed interim general purpose financial statements for the half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

3 Changes in accounting policies

3.1 New standards adopted by the Group

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

3.2 New standards not yet adopted by the Group

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

4 Segment Reporting

Management currently identifies the Group's three business lines as its operating segments: infrastructure, communications, and industrial services. The Group's Chief Operating Decision Maker (CODM) is its managing director, who monitors the performance of these operating segments as well as deciding on the allocation of resources to them. Segment performance is monitored using adjusted segment operating results.

Each of these operating segments is managed separately as each requires different technologies, marketing approaches and other resources. All inter-segment transfers are carried out at arm's length prices based on prices charged to unrelated customers in stand-alone sales of identical goods and services.

During the half-year to 31 December 2024, there have been no changes from the previous reporting period ended 30 June 2024 in the measurement methods used to determine operating segments. The revenues and profit generated by each of the Group's operating segment assets and liabilities are summarised as follows:

7 Joint arrangements

Details of material joint arrangements

Cash held at any joint arrangements is held as restricted cash on the basis that it's not freely available to the group as per the terms of the agreement.

Details of each of the Group's material joint arrangements at the end of the reporting period are as follows:

Name of joint arrangement	Principal activity	Place of incorporation	Proportion of ownership interest held by the Group		
			2025	2024	
Acciona Genus Joint Arrangement	The engineering, procurement, construction and commissioning of a high-voltage electricity transmission line and associated infrastructure	ACA Central, NSW	25%	-	
Samsung Genus Joint Arrangement	Design and build of a battery energy storage system	Melbourne, VIC	30%	-	

Acciona Genus Joint Arrangement

In December 2023, the Group entered into a joint arrangement with Acciona Construction Pty Ltd for the construction of the HumeLink East project in New South Wales. The Group holds 25% ownership of the joint arrangement. The parties to the contract have agreed to establish an unincorporated and fully integrated joint venture. Each party may contract jointly and severally with the client for performance of the works.

The legal form of the joint arrangement and terms of the contract satisfies the requirements of AASB 11 Joint Arrangements (para14-15). The parties would be considered joint operators, and the joint arrangement would be considered a joint operation for the purposes of the standard. Accordingly, all accounting should be undertaken per the requirements of AASB11, on a proportionate basis by each of the parties to the joint arrangement.

The Group's interest in Acciona Genus Joint Arrangement is accounted for using the proportional consolidation method in the consolidated financial statements. The following table illustrates the summarised financial information of the Group's investment in Acciona Genus Joint Arrangement.

7 Joint arrangements (continued)

Samsung Genus Joint Arrangement

In November 2023, the Group entered into a joint arrangement with Samsung C&T Corporation for the construction of the Melbourne Renewable Energy Hub – Stage 1A project located in Plumpton Victoria. The Group holds 30% ownership of the joint arrangement. The parties to the contract have agreed to establish an unincorporated and fully integrated joint venture. Each party may contract jointly and severally with the client for performance of the works.

The legal form of the joint arrangement and terms of the contract satisfies the requirements of AASB11 (para14-15). The parties would be considered joint operators, and the joint arrangement would be considered a joint operation for the purposes of the standard. Accordingly, all accounting should be undertaken per the requirements of AASB11, on a proportionate basis by each of the parties to the joint arrangement.

The Group's interest in Samsung Genus Joint Arrangement is accounted for using the proportional consolidation method in the consolidated financial statements. The following table illustrates the summarised financial information of the Group's investment in Samsung Genus Joint Arrangement.

Bank borrowings are secured by a floating charge over the assets of the Group (see Note 17). Current interest rates are variable and average 4.47% (30 June 2024: 4.44%). The carrying amount of the other bank borrowings is considered to be a reasonable approximation of the fair value.

Other financial instruments

The carrying amount of the following financial assets and liabilities is considered a reasonable approximation of fair value:

- trade and other receivables
- cash and cash equivalents
- trade and other payables.

11 Lease liabilities

Lease liabilities are presented in the statement of financial position as follows:

Group as a lessee

The Group has lease contracts for land and buildings and for various items of plant and equipment and motor vehicles used in its operations. Leases of plant and equipment and motor vehicles generally have lease terms between 3 and 5 years after which ownership of the underlying asset passes to the Group. Leases over land and buildings have lease terms of between 1 and 5 years. The Groups obligations under its leases are secured by the lessor title to the leased assets. Generally, the Group is restricted from assigning and subleasing the leased assets.

The Group also has certain leases of office equipment with low value. The Group applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of right-of-use assets and the movement during the period:

17 Contingent assets and contingent liabilities

The Group has no contingent assets.

There were no material warranty or legal claims brought against the Group during the year. Unless recognised as a provision, management considers these claims to be unjustified and the probability that they will require settlement at the Group's expense to be remote.

Further information on these contingencies is omitted so as not to prejudice the Group's position in the related disputes.

The Surety bond facility has a limit of \$110,000,000 (30 June 2024 - \$90,000,000).

18 Acquisitions and disposals

Businesses acquired

During the half-year ended 31 December 2024, the Group acquired the issued share capital of Commtel Network Solutions Pty Ltd and Partum Engineering Pty Ltd on 2 December 2024.

These acquisitions were not considered to be material to the financial statements of the Group and were completed in close proximity to year end. Due to the timing of the acquisitions, provisional accounting has been applied as permitted under IFRS 3 "Business Combinations".

Details of the acquisitions:

Acquisition of CommTel Network Solutions Pty Ltd (CommTel)

Date of acquisition: 22 October 2024

Consideration transferred: \$10,100,000 cash consideration

Description of the business: CommTel is a leading international provider of advanced and engineered solutions for mission and business critical networks.

Acquisition of Partum Engineering Pty Ltd (Partum)

Date of acquisition: 2 December 2024

Consideration transferred: \$5,700,000 cash consideration

2,460,937 shares issued for a cash equivalent value of \$6,300,000

Description of the business: Partum is an Australian based company providing engineering design and project consulting advice.

Provisional Fair Values of Assets Acquired and Liabilities Assumed:

Due to the proximity of both acquisitions to 31 December 2024, being the half year reporting date, management has not finalised the fair value assessment of assets and liabilities acquired through the business combination. As a result provisional accounting has been applied. No revenue or profit or loss has been recognised for either acquired companies for the half year ended 31 December 2024 as the estimated amounts are not material.

Independent Auditor's Review Report

To the Members of GenusPlus Group Ltd

Report on the half year financial report

Conclusion

We have reviewed the accompanying half year financial report of GenusPlus Group Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half year ended on that date, including material accounting policy information, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of GenusPlus Group Ltd does not comply with the *Corporations Act 2001* including:

- a giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half year ended on that date; and
- b complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations* 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations* 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
